OFFICERS.

B. T. WASHINGTON, *Principal*, Tuskegee, Ala.

OLIVIA A. DAVIDSON, *Ass't. Principal*, Tuskegee, Ala.

WARREN LOGAN, *Treasurer*, Tuskegee, Ala.

There are besides fourteen teachers in the various departments.

C I R C U L A R.

The growth of this school in the five years of its existence has been rapid and of a substantial character.

Starting with 30 students and one teacher in 1881, it now has 225 students and 17 teachers and officers in all the departments.

With the increase of facilities there has come a corresponding increase of expenses, for which there is no provision.

The faculty has decided to appeal to the public for aid in the form of scholarships. The students are barely able to pay their personal expenses, to say nothing of tuition.

The cost of tuition of 225 students for a year at \$50 each is \$11,250.

The tuition of 94 is provided for as follows:

State annual appropriation.....	\$3,000.00
From "John F. Slater Fund" (pledged for this year only).....	900.00
From "Peabody Educational Fund," probable.....	100.00
From "Woman's Home Missionary Association, of Boston," pledged for this year only).....	105.00
Total.....	\$4,705.00

For the remaining 131 students, for whose tuition no provision is made, the school asks scholarships or donations of \$50 each.

Without these scholarships the school will be forced to turn away a number of worthy young men and women who are too poor to pay for an education.

The two principals and seven of the other teachers of the Tuskegee Normal School are graduates of the Hampton Institute, and are well known to me as highly capable, qualified for their work, and worthy of all confidence.

I regard this school as the best, wisest and most telling work for the Negro race of any in the country under the care of colored teachers; and worthy to be compared with any institution devoted to the race. I ask for it the interest and help of all.

S. C. ARMISTEAD,
Principal, Hampton Institute.

Aid may be sent at any time to Treasurer, WARREN LOGAN,

REPORT.

The financial report of the school for the year ending August 31st 1885 is herewith submitted with schedules showing the details of the receipts and expenditures in all the departments.

The receipts from all sources were as follows :—

Donations of friends North and South for building, current expenses and other purposes.....	\$ 6,468 05
From "John F. Slater Fund" for Industries.....	4,000 00
State Appropriation for payment of teachers' salaries.....	3,000 00
Amount received from Macon County and from pupils of "Training School" as tuition	231 98
Proceeds of entertainments by teachers and students...	46 04
Loan from S. C. Armstrong.....	400 00

Total from all sources..... \$11,146 07

We have been actively engaged in building operations this year. "Alabama Hall" a large 4 story brick structure, has been so nearly completed as to render it fit for occupancy.

A small two room cottage for boys has been put up, besides, a number of out-houses for various purposes has been constructed.

The larger part of the "John F. Slater" appropriation has been used in paying the salaries of those teachers who have charge of the industrial departments.

The donation of \$500 of the "Woman's Home Missionary Association" of Boston enabled us to employ an additional teacher.

The "Boarding Department" has been removed from the basement of "Porter Hall" to "Alabama Hall" where there is ample space.

The industries have been more satisfactorily operated this year than ever before.

An instructor in carpentry has been added to the corps of teachers and under his management the Carpenter Shop has taken on new life.

We feel deeply grateful for the generous aid given us in the past and shall endeavor, by faithful work, to merit a continuance of it in the future.

For part of term

GENERAL INFORMATION.

The Tuskegee Normal School was established by an act of the Legislature of Alabama passed in 1880, and was opened in a church July 4th, 1881, with thirty students and one teacher.

The corner stone of "Porter Hall" was laid at the close of the first session, and the building was completed during the second session at a cost of \$6,000.

Work was begun on the new building, "Alabama Hall," in the summer of 1884. The building is now being occupied.

The school is now in its fifth session, has seventeen teachers and officers and an enrollment of 225 students representing nearly every county in Alabama and 5 States.

The appropriation of \$2,000 annually, made by the State Legislature at first for the support of the school, was increased at the session of 1882 to \$3,000 a year.

The State Fund is used entirely to pay tuition.

For money for buildings, land, apparatus, etc., the school looks to its friends North and South.

The property is deeded to a Board of Trustees, six of whom reside in the North and five in the South.

It is undenominational but earnestly religious in its teachings.

Work is required of all the students for purposes of discipline and instruction and of teaching the dignity of labor. A few students with no money work all day for a year and attend school at night. In this way they earn money with which to pay their expenses in day school, the succeeding term.

INDUSTRIES AND NEEDS.

BRICK-YARD.

There have been manufactured at the brick-yard by students 300,000 bricks.—The most of these have been put into the new building, but a large quantity was sold to outside purchasers.

FARM.

The school owns a farm of 540 acres—chiefly wood land. About 60 acres are available every year for tillage.

The timber is being cut off and used for fuel. If we owned a saw mill all of the lumber which is needed for building purposes could be manufactured on the school premises from its own timber.

More tools of an improved kind are needed on the farm, and the soil which has been impoverished needs fertilizing.

A pressing need of the farm is a new barn to replace the present exceedingly poor one.

CARPENTER SHOP.

The work in this department has been most satisfactory.

Besides doing a large part of the wood work of "Alabama Hall" the student mechanics have made a number of wheelbarrows for the brick-yard, fifteen bedsteads, a number of tables, washstands and wardrobes for the school, and done a large amount of repairing.

PRINTING OFFICE.

Four young men have been employed in the printing office. All of the school printing has been done in the office.

The composition and press work on this report was done by students.

INDUSTRIAL ROOM.

This Department employs a number of young women every day in the week in cutting, making and repairing clothing for students' use and for sale to outside parties.

IN GENERAL.

Greater attention has been given to the industrial departments this year than ever before. Three things are accomplished through the work system:—

1st.—The student is enabled to pay a part of his expenses of board, books, etc., in labor.

2nd.—He learns how to *work*.

3rd.—He is taught the dignity of labor.

In all the industrial branches the students do the actual work under direction of competent foremen.
